

Sunil Budhdeo

Transport Innovation Manager

- **Worlds First Urban E-VTOL (Drone) Airport?**
- **Future Mobility Now**

Vision For Coventry & The West Midlands Region

Reduce congestion and pollution via effective traffic management

A global centre for testbeds, pilots and trials of these new technologies

Demonstrate operational CAVs ahead of the 2022 Commonwealth Games

Introduce attractive automated ridesharing service

Meet new demands for responsive transport which will link seamlessly to public transport

Give public a reliable, safe and value for money alternative to private car ownership

Cluster of top universities attracting talent in manufacturing, engineering, science and tech

Enabling Advanced Air Mobility through Innovative Infrastructure

Passengers

Logistics - autonomous drone deliveries

Disaster emergency management

Mobile defence operations

The World's smallest airport
A one stop shop for drones and eVTOL

City Box[®] – Smart, Clean Integrated Urban Logistics

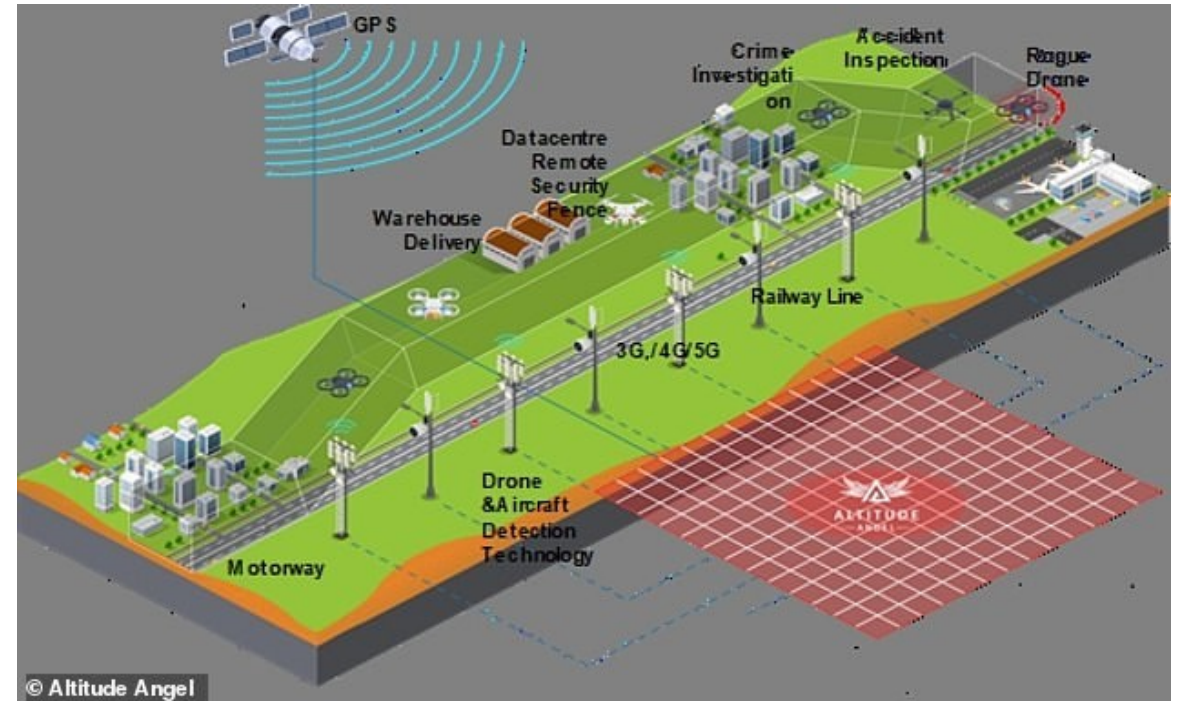

Confidential & Commercially Sensitive - UAP Proprietary Information
